

Denny Bros earns Suffolk Carbon Charter Gold award

As a global leader in multi-page labelling and printing solutions, Denny Bros is delighted to have earned the Suffolk Carbon Charter Gold award as part of our continued environmental commitment.

We have reduced our carbon footprint by 70% over the last five years

"We believe sustainability is a journey. There's always room for improvement and we continue to explore new initiatives as we move to become a truly carbon-neutral company."

Graham Denny, Managing Director

No room left on the roof

- ✓ Our fourth and final installation of solar panels on the factory roof means there is no longer any useable space left!
- ✓ Generation capacity is now 560kWhp which, on sunny days, is more than enough to power the entire site.
- ✓ We expect to generate 50-60% of our total usage plus considerable amount of export.

Other environmental commitments

- ✓ We are committed to achieving net zero by 2030, or sooner if possible.
- ✓ Zero to landfill – 45% of our waste is directly recycled, with the remaining 55% further processed and recycled for such things as solid recovered fuel.
- ✓ We hold the following quality and environmental standards – ISO 9001 (Quality), PS9000 (Pharmaceutical), and 14001 (Environmental).
- ✓ Our comprehensive energy management system monitors energy generation and consumption, material consumption, waste generation, recycling, transport, and more.
